RE: VSTL Change Decision

Dear Mr. Brian Hancock:

As a result of iBeta Quality Assurance's recent decision to discontinue operation from the EAC's Testing and Certification Program that became effective December, 13, 2010, ES&S has chosen to transition all testing activities previously supported by iBeta to Wyle Laboratories. Effective immediately, Wyle will assume testing responsibilities for the completion of the ES&S Unity 3.2.1.0 that was near completion with iBeta.

Please let us know if further action is required of ES&S to complete this transition.

Sincerely,

Steve M. Pearson
Vice President, Certification
Election Systems & Software, Inc.

Cc: Ken Carbullido, Senior Vice President, Systems
Frank Padilla, Wyle Laboratories
